- PROCUREMENT MANAGEMENT
- ENTERPRISE ASSET MANAGEMENT
- INTRANET PORTAL & EXTERNAL PORTALS
- CONTACT CENTER & CALL MANAGEMENT
- SERVICE DESK MANAGEMENT

APPPCRO

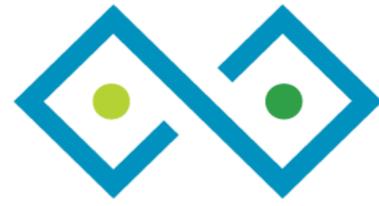

Infinity ECM platform – Main advantages

- **Out of the box Cloud or On-Premise (local) 20 in 1 Business Management Software.**
- Multifunctional and fully modular web solution with 20 sub-systems & 200+ modules.
- **Consolidates, optimizes, reduces (number & cost) of company software infrastructure.**
- Multilingual (16+ languages) & globally available over Cloud or official local partners.
- **Supports, improve & extend more than 20 business processes in every organization.**
- A fully responsive software solution (easy to use on desktop, tablet and mobile devices).
- **Easy integrations & extensions for different software products (ERP, HRM, PLM, WMS).**
- Different platform versions are suitable for small (Cloud), middle and big organizations.
- **Platform Solutions: ECM/CSP, CRM, DMS, RMS, BPM, CMS, ITSM, EAM, KMS, GRC, PM.**
- Flexible enterprise architecture based on Web API services and plug-in management.
- **Multi-org & Multi-company support (one system for many group-related companies).**
- Up to 30% increase in work productivity (better task management, collaboration, and work records, verifications & document approvals, digitization of documents & templates, portals, easy online availability).
- **Up to 30% savings on gross2 salaries of employees who use the Infinity ECM platform at day work job.**
- Microsoft based solution (On-prem requires MS Win App. Server, MS SQL Express, no extra MS CAL licenses).
- **Fast and easy digital process transformation (fast 1-3 months implementation and simple API integration).**

Infinity ECM platform: Email ticketing sub-system (clips)

The screenshot displays the user interface of the Infinity ECM email ticketing sub-system. It features a top navigation bar with 'E-MAIL' and 'DETAILS' tabs, and a prominent red 'NEW EMAIL' button. Below this is a toolbar with actions like 'Back', 'Assign', 'Change status', 'Reply', 'Forward', and 'Delete'. A central area shows email details for a message from Matija Šestak, including recipients and a token. To the left, a 'LABELS' sidebar lists 'Important', 'SPAM', 'Low priority', and 'Blocked'. A 'Links' section shows a link to 'UG03 - Interior design' with a 'Contract' label. A 'Send' form is visible at the bottom left, with fields for 'Receiver', 'Cc', and 'Bcc'. On the right, a 'FOLDERS' sidebar lists 'Inbox', 'Sent items', 'Archived', 'Trash', and 'SPAM'. Below the folders, a 'FILTERS' sidebar shows 'Unassigned' and 'Assigned to me'. At the bottom, an 'Email tracking servers' table is shown with columns for Name, Enabled, Host, Email, Tracked email, Protocol, and Status.

Name	Enabled	Host	Email	Tracked email	Protocol	Status
